=OO		=o	
=DP		=p	
=OQ		=q	
=DR		=r	
=ES		=s	
=FT		=t	
=UU		=u	
=VV		=v	
=VW		=w	
=XX		=x	
=YY			
=ZZ			
*1		*6	
*2		*7	
*3		*8	
*4		*9	
*5		*0	

How to use:

Simply type your text and one of the above codes (no spaces)...
and you can create something like this:

NOTE:

When you use the glyphs viewer to insert characters, you may notice that open type features stop working. If this happens, open another text box and begin typing - you should see them working correctly again.
